

SOLID™

PROVEN RELIABILITY. UNPARALLELED PRODUCTIVITY.

The foundation for a successful mining operation is built on rock-steady progress. Kennametal, the world's leading tooling and services provider, proudly introduces SOLID, our solution-focused platform that yields new levels of performance and productivity. SOLID-engineered tools deliver in the most challenging conditions.

For unmatched quality, value, innovation, and application expertise, visit www.kennametal.com or call 800.458.3608.

PRO/POINT™

Conical Tool Platform

Our unique slim-line construction combines with Kennametal's special NB tip to drastically reduce cutting forces! As a result, you get ultimate penetration, a more uniform material size/shape, minimum dust — all with less power consumed!

PRO/BORE™

Roof Bit Platform

Patent-pending helix-fluted design expertly pulls cut rock and dust through center chamber — and away from drilling action! That means maximum operator safety, far less wear and heat build-up, and, most critically, more than a 20% jump in cutting speeds in most applications!
