

When the margin of victory is less than a hundredth of a second, your margin for error is zero.

That's why Chip Ganassi Racing trusts Kennametal technology. In the world of competitive racing, off-the-shelf parts are about as effective as off-the-shelf solutions. That's why all Chip Ganassi Racing Teams insist on Kennametal. We work with them to create custom solutions for the challenges they face. Then we supply the tooling, services, and training to bring those solutions to victory. Find out more at kennametal.com.
