

When customers told us their snowplow blades weren't lasting as long as they used to, we uncovered the problem.

What problem can we solve for you? For 40 years, we heard nothing but praise for our snowplow blades. Then rougher surfaces and higher snowplow speeds made the blades wear out faster. Customers asked for help, and we responded with new blades that last as long as ever. Our metallurgical engineers can find similarly innovative solutions to the problems you're facing. Find out how at kennametal.com.
